

## **REMOVABLE MEDIA HOST EXECUTABLES**

### **ABSTRACT OF THE DISCLOSURE**

A method of storing images includes providing an image capturing apparatus.

A non-volatile memory medium is inserted into the image capturing apparatus. The non-volatile memory medium is suitable for storing image data. A program is written onto the non-volatile memory medium. The program is capable executing without specific user initiative when the non-volatile memory medium is coupled to a computer to access image data stored in the non-volatile memory medium.
